This table shows the results of the first-time/pilot use of the newly developed rubric for the assessment of the CSE capstone posters that student teams in each capstone course prepare at the end of the course. The rubric is available at web.cse.ohio-state.edu/~soundarajan.1/abet/DIRASSMNT/capstonePosterPresRubric2.pdf Column 1 is the name of the evaluator; column 2 is the project code; the next six columns list the scores for that project for each of the six dimensions on rubric with 5 denoting "strongly agree", 4 being "agree", 3 being "disagree", and 2 being "strongly disagree". [Originally, "Not applicable" was recorded as 1 but in this table those values appear as blanks in the corresponding cells. The last two rows list the averages across all projects and the standard deviations for each dimension.]

The five dimensions are: Problem formulation, Design approach, Implementation approach, Other factors (such as use of professional tools), Effectiveness as a project team, and Communication effectiveness.

Note: The project codes are based on the initials of the instructor with the digits corresponding to the various teams in that class. "MN" is for Murthy Narasimhan; "CL" is for Al Cline; "CR" is for Roger Crawfis; "PR" is for Ramasamy; SJ is for Suri Jayanti; "MC" is for Moez Chaabouni; "SB" for Steve Boxwell.
