CSE 757 AU04, Assignment 2

Read and summarize the article by Sotirovski on iterative development. Copies of the article will be distributed in class. If you miss the class, stop by during my office hours to pick up a copy; if you can't make it, send me email and I will bring a copy for you to class. The summaries should be written according to the guidelines below, and are due on **Oct 8** at 9:30 am.

The summaries should be at least 1 page long, single-spaced, at most 12pt font, typed, checked for spelling and grammar. Please read the course policies for information related to late assignments, etc. When submitting your summary, provide the following information and organize the summary into sections that correspond to the items below (i.e., name, date, and numbered sections for each question below).

Name:

Date:

**Section 1**: For what audience was the article intended?

**Section 2**: Describe at least three major points you found in this article. Focus on the big picture, not on minor issues. Make sure that you discuss each point in sufficient level of detail (e.g. at least a few sentences).

**Section 3**: Describe at least one weakness of the article. Justify your answer.

**Section 4**: What is your overall assessment of the article? This is your opinion - just be sure to explain and justify your view.

Grading Approach
- 1 pt - Question 1
- 2 pts - Question 2
- 1 pt - Question 3
- 1 pt - Question 4

Up to 2 points can be deducted for not typing the summary and for not using the proper spelling and grammar.
