

Laika's Ruff Trip created by Space Dog Studios

Jhoj Cana, Sean Edwards, Shawn Harkins, Ellen Khau, Tarun Pilli, Nathan Rauf

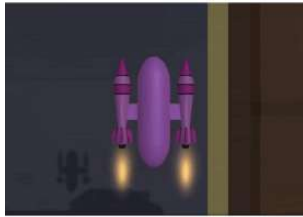

A stray mutt from the streets of Russia became the first creature to travel into space. This dog was named Laika, but she unfortunately dies. In an alternate reality where she survives the trip and goes through a wormhole that gives her telekinetic powers. She befriends an alien mechanic who will help her fix her ship to send her back to Earth. Laika explores this alien planet looking for the missing piece of her ship. By solving puzzles and hiding from enemy aliens, she searches for the missing piece back to head home.

HATS

JET PACK

TELEKINESIS

POWER UPS

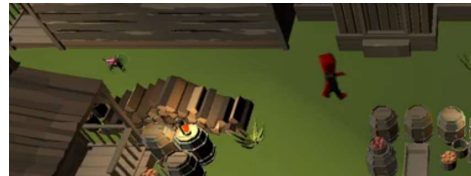

Laika has various power ups. The jet pack allows you fly in the air longer. The telekinesis allows for Laika to carry an item away from her body to place on another platform. Not technically a powerup, Laika is also able to wear cosmetic hats.

CHARACTER SELECT

STEALTH PUZZLES

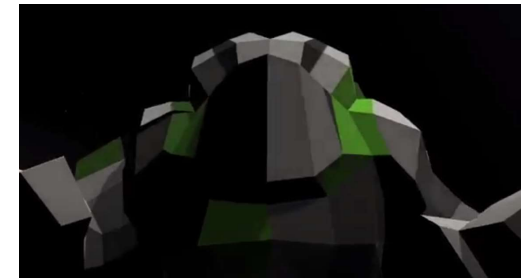

Laika is to reach the end of the different puzzles while avoiding the sight of the alien. If Laika is caught by the alien, she will have to restart he puzzle.

PUZZLES

Besides hiding from the enemy, you will also need to solve puzzle like turning all the lights green. Finding the hidden crates to complete the path. Solve these puzzles to help move you to the next stage of the game.

BOSS FIGHT

Find the batteries around to charge the turrets to shoot a laser cannon at Vulgis the Barbaric. After defeating the barbaric, Laika will gain the needed piece to head home.
